GREEN SEFTON – ANNUAL REPORT 2020

Green Sefton brings together the former Coast & Countryside, Parks & Greenspaces, Flooding & Coastal Erosion, Risk Management services all together to ensure a joined up approach to the vital management, development and oversight of Sefton's coastline, parks and green spaces.

The service manages circa 6,500ha of the landscape of the borough (32% of the borough, equivalent to 7,800 football pitches!) – its 22 miles of beautiful coast with protected sites, to a range of parks, greenspaces, outdoor sports and recreational sites, street trees etc. The service also insourced the grounds maintenance of the Cemeteries and Crematoria in 2020, which adds additional landscape features to manage.

Our landscape defines Sefton, and is treasured by our communities and visitors – as the 2030 vision highlights.

This Leaflet provides an overview of Green Sefton's progress for 2020 and highlights our priorities for the next 12 months.

A narrated version of the infographic overleaf can be found at <https://www.sefton.gov.uk/around-sefton/parks-and-greenspaces/>
