Dear Resident

A number of complaints have been received about the Fly-tipping of domestic waste in your area, particularly within the rear entry, with residents placing sacks and other waste materials out illegally.

### **DISCARDING OF WASTE IN THE REAR ENTRY AN OFFENCE**

Your bins should be placed on the highway to the front of your property and no other place. Fly-tipping in rear entries is not only unsightly but can encourage vermin by providing a readily available source of food for them.

This area is monitored regularly by Enforcement Officers and those who continue to Fly Tip are committing a Criminal Offence and risk Prosecution. If you have any information regarding who is fly tipping in the rear entries which could help with a prosecution please call the number above.

Residents wishing to dispose of bulky items should contact the Council on **0345 140 0845**. Thank you for your co-operation in this matter.

Yours Faithfully

Area Coordinator – South Sefton
