Dear Sir / Madam

re:- Licensing Application for:- Angus Tap + Grill
 98 Liverpool Rd, Crosby, L23 5TG

We wish to object to the above (which is effectively a night club) being open 7 days a week from 10am in the morning till midnight + on a Friday + Saturday till 1am.

This is a residential area + the noise from the live ~~entertainment~~ will make life unbearable. There is also the anti-social element with the drunks yelling + shouting + slamming of taxi car doors in the early hours + also using our road as a car wash. If people bring their own cars they will be parking them in our road + although it's "residents only parking" we never see a traffic warden enforcing this + the live hours can't get access.

Yours faithfully

The Licensing Authority Unit
Sefton MBC
Magdalen House
30 Trinity Road
L30 3NJ

Dear Sir /Madam

Representation reference Licence Application Angus Tap and Grind ltd
98 Liverpool Road Crosby L23 5TG

We would like to raise objections to the grant of a licence application for the above premises for the sale of alcohol and provision of live and recorded music 7 days a week from 10am to beyond midnight on some days.

1 This application is in particular contrary to Sefton Councils licensing objectives in relation in particular prevention of nuisance . The premises and location in close proximity to schools and long standing residential premises are in direct conflict with this aim.

2 The proposed hours of opening and all day alcohol / music licence until 12pm mid week days and later at weekends is entirely out of keeping with its location and construction of the premises.

3 Current experience with recent applications granted is mixed with those selling food and no music licence operating mainly without issues. Although some late night bars in the village are causing issues for local residents particularly after 11pm.

Similar issues would be result from this application which is a larger venue than those nearby. It is clear that this licence if granted will considerably increase the risk of unacceptable noise and anti social behaviour in what is a predominantly residential area. We live [REDACTED] from the venue and already experience this in particular on weekends when bars close at 11pm. This application for a 1am licence will attract drinkers from other venues closing earlier and add to the problem of nuisance in residential premises in close proximity.

4 The application does not propose any provision food and is merely a drinks music venue with ability to play music live and recorded at all hours of the day and night. their website states acoustic music but it is likely most will be amplified with no control over volumes and seeing doors windows closed.

5 There are several schools in direct proximity and the hours proposed from 10am are in direct conflict with these.

6 There are are also many residences within close proximity and hearing distance which will suffer in relation to the quiet enjoyment of their premises severely impacting on the quality of life, not to mention the flats which are part of this

development.

7 This application will not bring any benefits to the surrounding area as there are already many drinking outlets in walking distance albeit without live music provision or after 11pm opening.

10 The late night hours beyond those allowed for most other bars in the area will attract drinkers from other venues and is like to result in unruly drunken behaviour as experience by the late licence bars in the centre of the village,

To summarise

We think the above application should be refused on the grounds identified above or if granted to be restricted to later opening and earlier closure and minimum provision of food as part of the offer.
