### 4. ICT Equipment Refresh

- 4.1. The Council has a number of ICT assets (predominately laptops) that are now over five years old and approaching the end of their useful life. In order to meet the minimum specification as set by Microsoft for Windows 11, Windows 10 is end of life in October 2025 and therefore the Council has to replace these older devices in advance of this deadline.
- 4.2. The equipment refresh programme is estimated to cost £450,000 and will be funded from prudential borrowing, the cost of which has been included in the Council's Medium Term Financial Plan.

### 5. UKSPF Ways to Work Grant Funding

- 5.1. Sefton@work, the Council's job brokerage service has been in receipt of European Social Funding for the Ways to Work employment support project since 2016. This scheme was a joint programme delivered via all 6 of the Liverpool City Region (LCR) Councils, with the LCR Combined Authority being the Lead Body and in Sefton helped more than 5,500 residents.
- 5.2. ESF funds have now ceased but the Ways to Work delivery model for employment support continues to be the LCR's key investment in addressing employment inequality and forms an integral part of the wider Plan for Prosperity, with commitment being given to find alternative means of continuation funding after the end of ESF.
- 5.3. The Government's Fund to replace European Social Fund is the United Kingdom Shared Prosperity Fund (UKSPF), and the Ways to Work scheme has been earmarked in the LCR UKSPF investment plan to receive an allocation of UKSPF for the year 2024/25. This will allow the service to continue the Ways to Work offer for Sefton residents who are economically inactive until March 2025.
- 5.4. The UKSPF offer encompasses two funding streams of the LCR investment plan which are E33 which will support the residents who are deemed economically inactive to seek and retain work and L2 which supports those people facing redundancy or seeking to access work through a large-scale recruitment. The allocation of UKSPF Funding for E33 is £824,389.00 and the allocation for L2 is £412,194.50, giving a total grant figure of **£1,236,583.50**.
- 5.5. Sefton@work has a proven track record of efficient management of a wide range of external funding and measures have been put in place to ensure that all claims and performance management information required to satisfy the requirement of this SIF grant offer can be met. The staff resources are in place to deliver this service, and policies and protocols have been designed in

conjunction with the LCR-CA to ensure risks are managed appropriately and service delivery is conducted to the highest standards. Client facing staff are all trained and qualified to appropriate levels and compliance staff have significant expertise in successfully managing audit requirements from the internal, sub-regional and European levels. The service continues to hold the national MATRIX standard which assures the quality of information, advice and guidance to nationally recognised standards and has also maintained the national Customer Service Excellence award.
