300,000 First stage of Senior Management Restructure completed from which saving will be achieved.

This saving (£396k) is part of a £1.188m saving proposal phased over 3 years commencing 2012/13. It was very much in line with the Department's strategy to reduce our reliance on children placed in high cost Residential Care/Independent Foster placements and move them towards less expensive In-House Fostering with better outcomes for the child. The Department has made, and is continuing to make progress in this respect. However, Government policy and Family Court practice has been to increase the speed and number of children achieving permanence through Adoption; Special Guardianship and Residential Orders. There is an ongoing financial support associated with this practice, which has led to a significant financial burden on the Authority. Special Guardianship Orders overspent by £634k and Adoption Allowances by £148k in 2014/15, the latter of which was partially offset by one-off Adoption Reform Grant. These areas are forecast to overspend in 2015/16. *The number of Looked After Children currently stands at 453. These savings assume LAC numbers remaining at 400.
