Dear Mr Street,

Further to your reply to our Dr Brennan (for which he and I thank you), please accept this message as the response to Sefton Council's consultation on this matter.

The Lancashire Branch of the Campaign to Protect Rural England and its Sefton District Group warmly welcomes Sefton Council's intention to dispose of this land at Formby Point into the ownership of the National Trust. This will mean that the National Trust in effect becomes responsible for the management of the whole of Formby Point and we believe this is the best way of ensuring the long-term future of this ecologically sensitive and significant area.

We are most grateful to the Council for pursuing this course of action and we wish it well in bringing it to a successful conclusion.

Yours sincerely
