Dear John

I am writing further to our attendance at the Stakeholder meeting today in Southport. At the meeting we discussed the process for applications to become an authorised tester for Private Hire and Hackney Carriages within Sefton MBC. It was agreed with the Chairperson and the group that I should write to you with my application.

It was confirmed that currently you have no official process in place for new applications and it was agreed that this was under review.

The Chair person confirmed and advised that we should be allowed to apply in writing and that you would respond within 5 days. It was then agreed that you would put our application forward to the next L&R meeting with a report supporting our application and confirming the approval of the meeting.

We are an authorised MOT Testing Station and our garage is situated within the boundaries of Sefton.

I trust this application will be forwarded to the L&R meeting to be held in January 2010 and approval granted shortly after.

I look forward to your response and ask if you require any further information to contact me at the above office.

Kind Regards

Joseph Johnson  
Managing Director
