

COUNCIL MOTION
21 NOVEMBER 2019

PROPOSED BY: Councillor Dawson

SECONDED BY: Councillor TBC

NHS SERVICES IN THE NORTH-WEST

This Council:

- 1) Notes that plans to restructure the provision of NHS services, particularly the siting of acute services throughout the North West Region, has been continuing for some time, with the process largely proceeding in secret and not involving either patients or the wider communities involved.
- 2) Commits itself to working with local communities to ensure that profound changes which significantly affect the manner in which the NHS is delivered and received in this area are not introduced into hospitals and clinics serving local communities, without the fullest genuine involvement of local residents and their elected representatives in any such decisions.
