

COUNCIL MOTION

27 FEBRUARY 2020

PROPOSED BY: Councillor Dawson

SECONDED BY: Councillor TBC

RETAIL CENTRES FIT FOR THE 21ST CENTURY

This Council, recognising the fundamental changes presently affecting the retail environment of Britain in general, and in Southport in particular, commits itself to:

- (1) working actively with local residents, traders, the 'Southport BID' and local councillors across party to identify and implement methods of addressing the issues affecting the centre of Southport particularly, seeking to be involved actively rather than passively observing piecemeal decline; and
- (2) applying itself similarly to the issues confronting other smaller retail centres located within the communities which are served by the Borough of Sefton.
